

Finding mass cytometry (CyTOF) data

Last Modified on 17/03/2023 10:08 am EDT

Mass Cytometry is available in our *Application* filter

Mass cytometry (CyTOF: **Cy**tometry by **T**ime **O**f **F**light) is available as an **Application** filter. You can identify figures using heavy metal-labelled antibodies in mass cytometry by their *MC* tag on figure thumbnails and on product pages (see below). Selector's product database includes thousands of antibodies from *Fluidigm*, *Novus Biologicals*, and more!

Please check out our [Guide to Filters for Antibodies](#) in Selector to learn more about our filters!
