

Choose to see Figure or Product results first

Last Modified on 16/03/2023 1:21 pm EDT

When you first logged in, you were probably asked if you would like to see **Figure** or **Product** results first after performing a search. To change these preferences, click on **Profile > My Profile > Preferences** in the top right-hand corner.

This setting determines which of these two results tabs show up first, and what the results preview number in search suggestions refers to when you are typing in the search bar. This can be changed at any time to suit your preferences.

	Figures First		Products First	
Results	FIGURES (20 K)	PRODUCTS (4.2 K)	PRODUCTS (4.2 K)	FIGURES (20 K)
